

# D Resp Airway Stenosis

Record ID

---

## 1. Gold Standard Diagnosis

## 4. Disease Severity

Has the patient had pulmonary function testing within the past 3 months?

- ☐ No  
☐ Yes  
☐ Not certain

Please upload the PFT document

---

Does the patient have airway stenosis confirmed by a laryngoscopy, bronchoscopy or CT imaging?

- ☐ No  
☐ Yes  
☐ Not certain

Confirmed by

- ☐ Confirmed by bronchoscopy or laryngoscopy  
☐ Confirmed by CT imaging

## 2. Disease Subtype

Disease Subtype

- ☐ Subglottic Stenosis  
☐ Bilateral Vocal fold immobility or Glottic Stenosis  
☐ Supraglottic Stenosis  
☐ Tracheal Stenosis  
☐ Multi-Level Upper Airway Stenosis

Bilateral Vocal fold immobility or Glottic Stenosis Subtype

- ☐ Posterior Glottic Stenosis  
☐ Bilateral Vocal Fold Paralysis  
☐ Anterior glottic Web  
☐ Not certain or TBD  
☐ Other

Other, Please specify

---

## 3. Etiology

What is the etiology?

- ☐ Not certain or TBD  
☐ Iatrogenic (surgery or intubation)  
☐ Idiopathic  
☐ Auto-immune or granulomatous disease  
☐ Radiation  
☐ GERD  
☐ Caustic Injury or Inhalation Injury  
☐ Infectious (Diphtheria, TB, Bacterial Tracheitis, other)  
☐ Other

Other, Please specify

---

---

Auto-immune or granulomatous disease Subcategory	<input type="radio"/> Granulomatosis with polyangiitis (GPA) (Formerly known as Wegner's disease) <input type="radio"/> Relapsing Polychondritis <input type="radio"/> Other
--	--

---

Grade of Stenosis (Aziz Classification of Supraglottic Stenosis)	<input type="radio"/> Grade 1 <input type="radio"/> Grade 2 <input type="radio"/> Grade 3 <input type="radio"/> Grade 4 <input type="radio"/> Unsure
--	--

---

Grade of Stenosis (Aziz Classification of Supraglottic Stenosis)	<input type="radio"/> Grade 4T <input type="radio"/> Grade 4G <input type="radio"/> Grade 4TG
--	---

---

Grade of Stenosis (Aziz Classification of Supraglottic Stenosis)  
Picture for reference

---

Please describe levels and severity of stenosis involved

---

How would you subjectively classify the overall degree of stenosis?	<input type="radio"/> Mild <input type="radio"/> Moderate <input type="radio"/> Severe
---	--

---

How would you subjectively estimate the percent of stenosis from 0 to 100?

=====

(Place a mark on the scale above)

**5. Treatment obtained**

What treatment has the patient undergone for their stenosis?

- ☐ No treatment
- ☐ Surgery
- ☐ In-office treatment

Surgery options

- ☐ Endoscopic intervention with Laser and Balloon dilation and steroid injection
- ☐ Endoscopic laser wedge excision with balloon dilation and steroid injection
- ☐ Open Laryngotracheal reconstruction
- ☐ Laryngotracheoplasty (Maddern procedure)
- ☐ Tracheostomy
- ☐ Other

Other Surgery option, Please Specify

\_\_\_\_\_

In-office/awake treatment options

- ☐ Awake Steroid injection(s) as sole treatment
- ☐ Awake Steroid injection(s) as adjunct treatment
- ☐ In-office or awake dilation
- ☐ In-office or awake laser
